Evan J. O'Grady

eogrady01@g.ucla.edu | www.linkedin.com/in/evanjogrady | 518-813-0372

EDUCATION

University of California, Los Angeles, Westwood, California — Expected September 2026
Master's Degree in Quantum Science and Technology
Relevant Coursework: Quantum Information, Quantum Optics Laboratory, Satellite Quantum Networking

Manhattan University, Riverdale, New York — May 2025
B.S. in Computer Engineering (Major GPA: 3.81)

- Magna Cum Laude, HKN Honors Society, Annual Presidential Scholarship, Epsilon Sigma Pi Honors, Dean's List

Relevant Coursework: Math Methods, Applied Electromagnetics, Electronics, Signals & Systems

SKILLS

Software: Python, QuTip, Qiskit, C, C++, MATLAB, Unix Shell, PyTorch, Git, PSpice, HFSS
Technical: Experimental Quantum Optics, Scientific Computing, Quantum Simulation, Quantum Algorithms, Electronics Design, NMR Spectroscopy, Oscilloscopes, Circuit Analysis

PROJECTS

Quantum Optics Lab, UCLA MQST Laboratory — January 2026 – Present

- Perform hands-on experiments using modern optical equipment including lasers and fiber optics
- Build and characterize optical interferometers, optical cavities, and entangled photon states
- Demonstrate random number generation and quantum key distribution
- Produce technical reports documenting experimental methods, data analysis and simulations

RESEARCH EXPERIENCE

National Science Foundation — May 2024 – May 2025
Undergraduate Researcher (Advisor: Dr. Yi Wang)

- Selected as one of 6 undergrads for the NSF's International Research Experience for Students (IRES) program in Zaragoza, Spain
- Investigated newest innovations in large language models, object detection, and speech recognition machine learning
- Developed an AI based assistant for the visually impaired using Python
- Collaborated with professors and students from the University of Zaragoza, Manhattan University, and City University of New York
- Presented results at IEEE SoutheastCon 2025

PROFESSIONAL EXPERIENCE

Photonic Technologies Intern, The Aerospace Corporation — Incoming Summer 2026

Research Mentor, Nova Scholar Education — July 2025 - Present

- Guide high school students through the process of completing a research project
- Provide subject matter expertise to students interested in research related to engineering and computer science
- Introduce students to the principles and practice of academic research

Section Leader, Stanford University's Code in Place — Summer 2025

- Taught fundamentals of python programming through one of the largest free computer science education initiatives in the world
- Successfully led a group of ~15 diverse students through the first half of Stanford's intro to Python course
- Gained interpersonal skills, practiced engaging pedagogy, and demonstrated mastery of Python principles

Tutor/Mentor, IEEE HKN Honors Society — August 2024 – May 2025

- Held weekly open tutoring hours for peer students in select math and electrical engineering courses
- Mentored two underclassmen in professional and academic advice
